2019

THE M.A. PROGRAM

The Penn State's M.A. program in Criminology is a general program that is designed to enhance students' knowledge of the causes and consequences of crime, society's response to crime, and the research methods and statistical techniques used to study these issues.

Advisers

M.A. candidates undertake their first year of study with the assistance of an interim adviser (typically the faculty member to whom the student is assigned as a graduate assistant) appointed by the Graduate Officer.

The Penn State Graduate School requires that all M.A. candidates meet with their advisers prior to each registration for the purpose of discussing the candidates' progress toward their degrees.

Course Requirements

The M.A. in criminology requires 37 hours of course credits. Required courses are:

- CRIM 500 – Introduction to Graduate Studies
- CRIM 501 - Criminal Justice System
- CRIM 512 - Theories of Crime and Deviance
- SOC 513 - Sociological Research Methods
- SOC 574 - Statistical Methods for Social Research
- SOC 575 - Statistical Methods for Nonexperimental Research Teaching Lab

In addition, students must complete:

- CRIM seminars – 12 hours (not fulfilled by Individual Studies (CRIM 596))
- SOC seminar – 3 hours
- M.A. thesis credits – 6 hours (CRIM 600)

Required seminars in research methods and statistics assume background gained through some combination of undergraduate course work and individual study. Students who are not confident in their basic statistical knowledge are encouraged to take SOC 470 or a comparable course in a related department prior to enrollment in SOC 574.

The Graduate School requires that M.A. candidates complete six thesis credits, generally acquired during the summer after the first year of graduate study or during the second year. Additional courses are selected by the students in consultation with their faculty committees.

Required Course Load

The Graduate School specifies that students holding 20-hour-per-week assistantships must carry 9 to 12 course credits per semester. Thesis and dissertation credits count toward this requirement; there is no limit on the number of these credits that can be taken, and after the first year they are frequently used to meet the required course load.

Grade-Point Average

A minimum grade-point average of 3.00 for work done at Penn State is required to graduate. However, criminology faculty expect students' grade point averages will be 3.50 or above. Students with GPAs below 3.25 are considered to be performing below satisfactory level.

Thesis Committee

Before completion of the second semester of study, the student should select and obtain the consent of three Graduate Faculty members to compose an M.A. committee. At least two of the committee members, including the chair of the committee, must be tenure-line criminology faculty. One of the criminology faculty is designated by the student to be thesis adviser and committee chair. Typically, M.A. candidates should convene a meeting of their three-member committee at the beginning of their third semester in the graduate program.

Thesis

Students are advised to take advantage of all opportunities during their first year of study to develop an M.A. thesis proposal and then to begin work on the thesis during the first summer. Preparation of the thesis in journal format is encouraged. M.A. candidates are required to submit a thesis acceptable to their M.A. committee and to defend the thesis at a meeting with committee members. Students are expected to defend the thesis before the beginning of the third year. All theses are subject to regulations detailed in the Office of [*Thesis and Dissertations*](#) of the University, and a one page abstract of the thesis must be filed with the Graduate School.

Time Limit for the M.A.

The University requires that students must complete the M.A. degree within four years of their initial enrollment. However students who do not complete the M.A. degree within two years are not guaranteed to receive financial aid.

THE PH.D. PROGRAM

Ph.D. Candidacy Evaluation

A Candidacy Evaluation is required by the Graduate School of all students aspiring to enter a Ph.D. program at Penn State. The purpose of this evaluation is to assess the student's potential to successfully complete a high quality Ph.D. program. If approved for candidacy, the student is officially admitted to the Criminology Ph.D. program.

The Candidacy Evaluation, which is conducted by the Graduate Committee, is based on a dossier prepared by the student; ordinarily attendance by the student at the Candidacy Evaluation is not required. The student dossiers should contain: transcripts, assistantship evaluations, and faculty evaluations supplied by the Graduate Officer; the M.A. Thesis; an additional paper; and a Plan of Doctoral Study supplied by the student. The additional paper must have been written during the course of graduate study at Penn State. The Plan of Doctoral Study must include probable course selections, a rationale for the proposed courses, and probable faculty committee members. **In addition, the student must provide a written release allowing the Graduate Committee to examine all violations of academic integrity that have been filed with the Academic Integrity Office during his or her term of graduate study at Penn State.** After admission to candidacy, Ph.D. students are required to meet with their advisers prior to each subsequent registration for the purpose of discussing the candidates' progress on their plans of study and revising such plans as appropriate.

For students who earn the M.A. degree in Criminology at Penn State or for those entering with the M.A. but required to write a thesis, the Candidacy Evaluation shall take place no later than the semester following the M.A. thesis defense. For students who earned an M.A. degree with thesis in a criminology/criminal justice-related field at another institution, the Candidacy Evaluation shall take place at the end of the second semester of graduate work at Penn State. The Graduate School requires that the student must be registered as a full-time or part-time student for the semester in which the Candidacy Evaluation is held. Appeals of Candidacy decisions can be filed with the Graduate Officer and will be heard by the Criminology Graduate Faculty.

The Ph.D. Committee

The candidate's Ph.D. studies are conducted under the supervision of a Ph.D. committee, composed of at least four members of the Graduate Faculty, at least two of whom must be Criminology tenure-line faculty and one of whom must be from outside the Criminology Program and Sociology Department. One Criminology tenure-line faculty member is designated chair of the Ph.D. committee; ordinarily this person also serves as general adviser and director of the dissertation. The process of Ph.D. committee formation begins with the student obtaining the consent of the faculty members the student would like to have appointed. The student then submits to the Graduate Officer the names of each faculty member along with a description of the role to be played by each on the committee. This submission will be reviewed by the Graduate Officer. If approved, the proposed committee will be submitted for final approval by the Graduate School.

Students must identify and convene their Ph.D. committee **no later than one semester following their Candidacy Evaluation**. The Ph.D. committee supervises the Ph.D. candidate's course of study, Comprehensive Examination, and dissertation.

Course Requirements

For the Ph.D. in Criminology at Penn State, 30 course credits are required beyond the M.A., no more than three of which may be for Individual Studies (CRIM 596). Please note that the allowed Individual Studies (CRIM 596) credits count towards the 12 ELECTIVE credits and not the 6 REQUIRED Seminar credits. All Ph.D. candidates also must have completed all courses required for the M.A. degree in Criminology at Penn State, or their equivalent.

The 30 course credits beyond the M.A. must include:

CRIM Seminars	6 hours
Elective Seminars	12 hours

All seminars should be selected in consultation with the Ph.D. committee.

Language/Communication Requirement

The Criminology Program has no formal foreign language or communication requirement. However, it is highly recommended that the student pursue additional training in statistics, computer science, a foreign language, technical writing, and/or specialized methods or theory, insofar as these will further his or her research and career plans. Decisions about advanced work in these areas are made by students in consultation with their committees.

The University requires each Ph.D. candidate to demonstrate high-level competence in the use of the English language, including reading, writing, listening, and speaking. Proficiency is expected at the time of admission to the Graduate School and must be formally certified in accordance with departmental policy before admission to Ph.D. candidacy. A comprehensive training program in English as a Second Language is offered to international students through the Department of Speech Communication. Many domestic and international students can benefit from taking courses in technical writing available through the Department of English, the School of Communications, and the Graduate School.

Scholarship and Research Integrity (SARI) Training

All entering graduate students are expected to complete the online training by the end of their first year of graduate study. The Office of Research Protections (ORP) will provide the conduit to this training via the SARI Resource Portal on the ORP website (<https://www.research.psu.edu/education/citi>). All first-year students are responsible for sending their certificates of completion to the Graduate Officers and Graduate Program Coordinator before the end of the fall semester of their first year.

In addition, graduate students must complete another **5 hours** of discussion-based Responsible Conduct of Research (RCR) education prior to degree completion. The discussion, which will encompass both universal and discipline-specific research integrity issues, will be delivered in two ways: (1) via **3 hours** of discipline-specific RCR discussion-based education provided as part of SOC/CRIM500 (Introduction to Graduate Studies), which all income students are required to take; and (2) via **2 hours** of centrally sponsored RCR opportunities. Centrally sponsored RCR opportunities will engage students in cross-disciplinary conversations about research ethics. Ample opportunities exist for students to fulfill this requirement, including RCR workshops, Research Integrity brownbag sessions, Survival Skills and Ethics professional development programs, and IRB workshops. Students are responsible for identifying, scheduling, and documenting these 2 hours of training.

The remaining training activities must be completed by the end of the students' time in the program. Prior to degree completion students will submit documentation to the Graduate Office and Graduate Program Coordinator indicating that they have satisfied the full 5 hours of the SARI initiative requirements.

Grade-Point Average

A minimum grade-point average of 3.00 for work done at Penn State is required to graduate with a Ph.D. However, the expectation is that students' grade point averages will be 3.50 or above.

Comprehensive Examination

A Comprehensive Examination will be administered by the student's Ph.D. committee. Candidates are required by the Graduate School to have a minimum grade-point average of 3.00 for work done at Penn State at the time of the Comprehensive Examination, and they must be registered as full-time or part-time degree students for the semester in which the Examination is taken. A favorable vote of at least two-thirds of the committee is required for passing. The Comprehensive Examination shall be placed in the student's departmental file.

Nature of the Examination

The purpose of the Comprehensive Examination is to ensure competency in the theory, research, and methods of criminology. At the discretion of the Ph.D. committee, examination content will include material on (1) general criminological theory, (2) criminal justice/law, (3) research methods/statistics, and (4) the student's area of specialization.

The Comprehensive Examination consists of written and oral segments. The written closed-book exam will be administered in morning and afternoon sessions on two consecutive days. The oral portion of the Comprehensive Examination occurs in a meeting of the candidate with the Ph.D. committee. This shall be an occasion for feedback and discussion of the student's written examination and often will include an initial discussion of the student's plans for dissertation research.

The oral portion of the Comprehensive Examination must be scheduled two weeks in advance with the Graduate School.

Timing of the Examination

Students who entered the Penn State Graduate Program in Criminology with a B.A./B.S. should have passed the Comprehensive Examination by the end of their fourth year. They are advised, however, to take the exam by the fall semester of their fourth year. Those entering the program with an M.A. should have passed the examination by the end of their third year, but are advised to take the examination by the fall semester of their third year.

Repeating the Comprehensive Examination

Students who fail the Comprehensive Examination may repeat it once, so long as these time limits are not exceeded.

Dissertation

The Ph.D. dissertation provides evidence that the student can conduct independent scholarship. According to the Penn State [*Graduate Bulletin*](#), "The ability to do independent research and competence in scholarly exposition must be demonstrated by the preparation of a thesis on some topic related to the major subject. It should represent a significant contribution to knowledge, be presented in a scholarly manner, reveal an ability on the part of the candidate to do independent research of high quality, and indicate considerable experience in using a variety of research techniques."

Dissertation Proposal Hearing

The student's dissertation research is conducted under the supervision of the Ph.D. committee. The purpose of the Dissertation Proposal Hearing is to arrive at a detailed, mutually agreeable contract between the student and the committee as to what the Dissertation will include. Ideally, the hearing should be scheduled at a point at which a substantial literature review has been conducted and drafted, and at which methodological questions have been worked out in detail. The hearing also provides the committee with an occasion on which to make any final recommendations for the student's course work. The hearing may be held in combination with the oral portion of the Comprehensive Examination.

Timing of the Hearing. Students entering the Graduate Program in Criminology at Penn State with a B.A. or B.S. are advised to hold the formal Dissertation Proposal Hearing during their fourth year. They should certainly have held the hearing by September of their fifth year. Students entering the program with an M.A. are advised to hold the formal Dissertation Proposal Hearing during their third year. They should certainly have held the hearing by September of their fourth year.

Dissertation Defense

Completion of the requirements for the Ph.D. includes a formal oral defense of the dissertation. **A favorable vote of at least two-thirds of the committee is required for passing.** As stipulated in the Penn State [*Graduate Bulletin*](#): "Both the thesis director and the student are responsible for ensuring the completion of a draft of the thesis and for adequate consultation with members of the thesis committee well in advance of the oral examination (Defense). Major revisions to the thesis should be completed before this examination. The dissertation should be in its final draft, with appropriate notes, bibliography, tables, etc., at the time of the oral examination; both the content and style should be correct and polished by the time this final draft of the thesis is in the hands of the committee. **It is the responsibility of the doctoral candidate to provide a copy of the thesis to each member of the doctoral committee at least one week before the date of the scheduled examination.**" Prompted by the student, the Graduate Secretary will notify faculty and students in the Department of the Defense and invite them to attend. The [*Graduate Bulletin*](#) specifies that the final oral examination, which serves as the Defense of the dissertation, shall be "related in large part to the dissertation, but may cover the candidate's whole program of study . . ."

Timing of the Dissertation Defense. The formal defense of the dissertation shall be scheduled by the Graduate School upon receipt of written notification from the Ph.D. committee chair that the committee judges the dissertation to be satisfactory for a defense. **Two weeks' notice** is required by the Graduate School. The deadline for holding the defense is **seven weeks before commencement**. The student must be registered as a full-time or part-time degree student for the semester in which the final oral examination is taken.

ASSISTANTSHIPS

All Criminology graduate students receive teaching or research assistantships. The program makes every effort to continue from year to year the assistantship of each graduate student who: (1) maintains a satisfactory level of academic performance; (2) fulfills the duties associated with the assistantship (performance of these duties is evaluated at the end of each semester); and (3) completes his or her degree requirements in a timely fashion (see below). One of the most important of these time requirements is completion of the M.A. thesis by the first day of the third year of graduate study. Continuation of funding is, of course, subject to the availability of funds.

Graduate students given research or teaching assignments are responsible for carrying out their duties throughout the entire semester. For those with teaching assignments, the semester (or summer session) does not end until grades are computed and posted. Graduate student teachers must be present for each class session. Any absences except for last minute emergencies must be approved in advance by the Graduate Director and alternative arrangements for the class, acceptable to the Graduate Director, must be made. It is not acceptable for graduate student teachers to miss class without the consent of the Graduate Director. Similarly, research assistants are expected to be present for scheduled meetings as well as for any occasions for which they have scheduled duties.

Criminology program requirements are such that it should take two years to satisfy requirements for the M.A. Completing the Ph.D. should take three more years for students who earn their M.A. at Penn State and four years for students who enter the Penn State Ph.D. program after earning an M.A. elsewhere. Students who take longer to complete the respective degrees are considered to be behind schedule, and in such cases department financial aid will not typically be available.

ADDITIONAL INFORMATION

Annual Evaluation

At the end of each academic year, students receive written feedback on their performance from the Graduate Officer, based on faculty discussion at the annual review meeting that is held at the end of the spring semester. Information for this performance evaluation is obtained from all faculty who have had a particular student in a seminar, supervised an independent study course for the student, or served on the student's M.A. or Ph.D. committee. Course grades and assistantship evaluations are also reviewed for each student.

Residency Requirements

There are additional Graduate School requirements that apply to Ph.D. candidates: Over some twelve month period after admission to Ph.D. candidacy, the candidate must spend at least two semesters (which may include the semester in which the Candidacy Examination is taken) as

a registered full-time student engaged in academic work at the University Park campus. After the residency requirement is met and the Comprehensive Examination passed, status as a student must be maintained by continued registration for credit or noncredit dissertation research courses for at least two semesters of each calendar year until the dissertation is accepted by the doctoral committee. See the Penn State *Graduate Bulletin* for further information about all Graduate School requirements.

Graduation

At the beginning of the semester in which they intend to graduate, students are responsible for informing the graduate recorder of their intent via LionPATH (eff. Fall 2016), filing a diploma card, and paying the thesis fee. If the student does not graduate until some subsequent semester, it is necessary to inform the graduate recorder again of the intention to graduate at the beginning of the actual semester of graduation. Deadlines are given in the Registrar calendar found [here](#).

Format details for both M.A. and Ph.D. theses are provided in the [Thesis Guide](#). Ph.D. candidates must submit a final copy of the thesis to the Graduate School Thesis Office by the announced submission deadline for the semester or summer session in which the degree will be conferred.

Appeals

If a student believes that professional considerations justify an exemption from any of the requirements of this handbook, the student can appeal for such an exemption to the Graduate Committee. If the Graduate Committee sees fit to do so, or if the student wishes to appeal a Graduate Committee decision, the matter can be brought before the Graduate Faculty in Criminology. With the concurrence of the Department Head, a decision of the Graduate Faculty is binding. Neither the Graduate Committee nor the Graduate Faculty is empowered to exempt the student from requirements set forth in the [Graduate School](#).

A process is set forth in the Graduate Bulletin for appeals of dismissal from the graduate program or termination of assistantship funding.

Additional University Requirements

This Criminology Program handbook is supplementary to the University's [Graduate Bulletin](#). The student is responsible for knowing the requirements of the Penn State Graduate School concerning thesis deadline dates, payment of fees, filing for diplomas, time limitations on degree candidacy, and so on.

Professional Conduct

Graduate students are expected to conform to the highest standards of professional conduct. All academic integrity violations will be prosecuted in accordance with the College's Policies and Procedures for Academic Integrity. All graduate students are expected to be familiar with the Policies and Procedures (<http://www.la.psu.edu/>). The Policies and Procedures document contains the following statement of policy:

“The University’s ability to achieve its mission depends upon the quality and integrity of the intellectual work performed by all of its faculty and students. All members of the University at all times must take full responsibility for the integrity and basic honesty of the expression and communication of their thoughts. Accordingly, individual faculty and students are never permitted to take credit for or represent as one’s own work anything that in fact is the work of other persons, whether classmates, published authors, or anonymous contributors on the internet. Academic dishonesty encompasses a wide range of activities, whether intentional or unintentional, that includes, but are not limited to: all forms of fraud, plagiarism, and any failure to cite explicitly all materials and sources used in one’s work. Similarly, individual faculty and students are never permitted to pursue work by any means that unfairly disadvantage others. This prohibits activities that include, but are not limited to cheating, lying and deception, and directly harming the work of others. The College of the Liberal Arts vigorously seeks to achieve compliance with its policy on academic integrity. The College does not tolerate violations of that policy, and, toward that end, the College supports appropriate sanctions consistent with University guidelines and with state and federal law. For students, these sanctions include, but are not limited to, failure in a course, removal from the degree program, failure in a course with an explanation in the permanent transcript of the cause for failure, suspension, and expulsion. The College Academic Integrity Committee will review and settle all contested cases of academic integrity infractions in which academic sanctions are applied, and will be the final level of review for charges of academic dishonesty.”

Questions about professional ethics also arise in another context, the use of human subjects for research purposes. To provide safeguards for all concerned, the University requires that any use of human subjects for research, instructional, or continuing education activities be submitted for institutional review. Further information can be obtained from the Office for Regulatory Compliance, 212 Kern Building.

Typical Schedule for MA/PhD Students in Criminology

	Courses	Requirements	Objectives
Yr 1-FA	CRIM 500 (Intro Grad Studies) CRIM 512 (Crim Theory) SOC 574 (Statistics I) Elective Seminar		Get oriented to the program
Yr 1-SP	CRIM 501 (Criminal Justice) SOC 513 (Research Methods) SOC 575 (Statistics II)		Develop Thesis proposal
Yr 1-SU			Work on MA Thesis
Yr 2-FA	CRIM Seminar CRIM Seminar Teaching Lab Thesis Credits	Assemble MA Committee	Work on MA Thesis
Yr 2-SP	CRIM Seminar SOC Seminar Thesis Credits	Defend MA Thesis	Complete MA Thesis
Yr 2-SU			Develop Dissertation Idea
Yr 3-FA	CRIM Seminar(s) Elective Seminar(s) Thesis Credits	Pass Candidacy Evaluation	
Yr 3-SP	CRIM Seminar(s) Elective Seminar(s) Dissertation Credits		Begin Preparing for Comps
Yr 3-SU			Develop Dissertation Proposal
Yr 4-FA	CRIM Seminar(s) Elective Seminar(s) Dissertation Credits	Pass Comps, Defend Dissertation Proposal	
Yr 4-SP	CRIM Seminar(s) Elective Seminar(s) Dissertation Credits		Dissertation Research
Yr 4-SU			Dissertation Research
Yr 5-FA	Dissertation Credits		Dissertation Research Job Search
Yr 5-SP	Dissertation Credits	Dissertation defense	Complete Dissertation Job Search

Guidelines for Criminology Students Pursuing Degrees in Sociology

The Criminology Graduate Program serves as both an interdisciplinary doctoral program and as the criminology specialty area of the Sociology Department. This combination is at the core of the program's identity, and we highlight it in recruiting both graduate students and faculty. To fully realize the program's role as Sociology's criminology specialty area, we have created the means for those students who consider themselves sociologists to earn degrees in Sociology, provided that they meet appropriate requirements. Fortunately, the structure and requirements of the Criminology Graduate Program are closely coordinated with those of the Sociology Graduate Program, so the task is not complex.

Course requirements. Below we list the course requirements for both graduate programs. The two sets of requirements are quite compatible, and we have found that, with proper course selection, it is straightforward for students to meet the Sociology requirements in the course of completing the Criminology requirements. Note that most of the courses in the Sociology M.A. program are also required in the Criminology M.A. program. The only Sociology course not required for the masters in Criminology is sociological theory (Soc 502). *Thus, a student who completes the Criminology masters requirements can complete the Sociology M.A. course requirements by adding sociological theory.*

Because the Criminology Program serves as the criminology specialty area of the Sociology Department, the four seminars in Criminology will satisfy the major area requirement in Sociology. Criminology elective credits can be used to complete the Sociology minor requirement. Sociological theory (Soc 502) can count as one of the four Criminology elective seminars.

Comprehensive exam requirements: The comprehensive exam requirements of both programs have the same basic form, which is two days of in-house exams, followed by an oral exam. Doctoral committees are responsible for writing the exam questions and evaluating the written and oral answers. In both programs committees have the option of requiring students to write a dissertation proposal in advance of the comprehensive exam and having the oral exam also serve as the proposal hearing. In both programs the doctoral committee is free to determine the content covered by the comprehensive exam, though in Criminology there are four areas of coverage: criminology, criminal justice, methods and statistics, and the student's specialization area. Thus, a single exam can satisfy the comprehensive exam requirements of both programs. It is recommended that the exam questions for Criminology students seeking Sociology degrees not be limited to the study of crime. At a minimum, they should also include non-criminological themes from the student's area of specialization.

Doctoral/MA Thesis Committee: The doctoral or masters committees of Criminology students earning Sociology degrees should be chaired by (or at least co-chaired by) a Criminology faculty member with a joint title in Sociology. Doctoral committees should include at least two Criminology faculty members (including the chair) and at least one non-Criminology member of the Sociology faculty. Masters committees should include at least one of each.

Dissertation or thesis topic: Criminology students earning Sociology degrees must complete dissertations or theses on sociological topics.

“Transferring” to Sociology or Criminology: Criminology students who wish to receive Sociology degrees will be transferred “on the books.” This requires the signature of the Sociology graduate officer, who has the discretion to decline the request if he or she judges that the student’s performance is not up to standards or that the students’ interests are not appropriate to the Sociology Program.

All Sociology students are eligible to choose Criminology as their major or minor area, even if they were not originally admitted as Criminology students. Any students originally admitted to Sociology who complete the requirements of the Criminology Program will have the option of earning either degree. The Criminology graduate officer will have signature authority and discretion for students transferring to the Criminology degree program. For students transferring from Sociology to Criminology, the two graduate officers and department head will negotiate funding and oversight on an individual basis.

Graduate committee oversight of students’ programs: The Criminology graduate officer and graduate committee will take primary responsibility for the oversight of all Criminology students regardless of which degree they seek. This includes functions such as conducting annual reviews and judging whether students are making satisfactory progress to warrant continued funding. For Criminology students who are seeking Sociology degrees, the Sociology graduate officer and graduate committee will have secondary oversight with authority to overrule their Criminology counterparts on all matters except funding from the Criminology budget. (In other words, the Sociology graduate committee will delegate direct oversight to the Criminology graduate committee, which will act in the capacity of the criminology specialty area of Sociology. But “final authority” will still reside in the Sociology graduate committee, since these will officially be sociology students.)

Quantitative Methods Certificate

The Penn State Sociology and Criminology Programs have exceptional strength in quantitative research methods and statistical analysis techniques, both in their graduate faculty and in their consequent course offerings. Capitalizing on these strengths, students in Sociology and Criminology can earn a Certificate in Quantitative Methods (QM) in place of a minor (with approval from the Graduate Committee). To earn a QM Certificate, students must (1) complete four approved methods/statistics courses (12 hours) beyond Soc 513, 574, and 575 (see below); (2) include a quantitative methodologist on the Ph.D. dissertation committee; and (3) one of the areas covered in the comprehensive exam must be quantitative methods.

A quantitative methodologist is defined as a faculty member who teaches graduate level quantitative methods and/or who has a publication record in quantitative methods. The Sociology/ Criminology Departmental Quantitative Methods Certificate committee will determine which faculty meet this criterion. Committee members outside of the sociology department may also meet the qualifications to serve as the quantitative methodologist on the Ph.D. dissertation committee. The QMC committee must approve any outside members who are requested to serve in this role.

Courses listed below can be used to meet the four-course requirement mentioned above. Additional courses will also be considered, and new ones will be added as we find out about them and they become available. Institute for Social Research summer institute courses can also be used upon the approval of the committee (one week workshops are excluded). A student may petition the QM committee to add a course to the list.

ECON 500 Mathematical Economics
ECON 501 Econometrics
ECON 502 Microeconomic Analysis
ECON 503 Macroeconomic Analysis

STAT 500 Applied Statistics
STAT 501 Regression Methods
STAT 502 Analysis of Variance and Design of Experiments
STAT 503 Design of Experiments
STAT 504 Analysis of Discrete Data
STAT 505 Applied Multivariate Statistical Analysis
STAT 506 Sampling Theory
STAT 509 Design and Analysis of Clinical Trials
STAT 510 Time Series Analysis

SOC 518 Survey Methods I: Survey Design
SOC 519 Survey Methods II: Analysis of Survey Data
SOC 572 Foundations of Causal Analysis in the Social Sciences
SOC 573 Demographic Techniques
SOC 576 Applied Mathematical Demography
SOC 577 Event History Analysis
SOC 578 Multilevel Regression Models
SOC 579 Spatial Demography
SOC 597 Advanced Structural Equation Models

SOC 597 Categorical Data Analysis
SOC 597 Measurement Issues in Social Data

HDFS 517 Multivariate Study of Change and Human Development
HDFS/PSY 526 Measurement in Human Development

Other courses not listed above may be approved to meet the QMC course requirement by the Sociology/ Criminology Departmental QMC committee.

A student who has met the requirements for the QM certificate must write a letter to the Director of Graduate Studies specifying how they have been met and requesting the award of the Certificate. Students who are approved will receive a letter confirming the completion of all requirements and a signed certificate.

This publication is available in alternative media on request.

The Pennsylvania State University is committed to the policy that all persons shall have equal access to programs, facilities, admission, and employment without regard to personal characteristics not related to ability, performance, or qualifications as determined by University policy or by state or federal authorities. It is the policy of the University to maintain an academic and work environment free of discrimination, including harassment. The Pennsylvania State University prohibits discrimination and harassment against any person because of age, ancestry, color, disability or handicap, national origin, race, religious creed, sex, sexual orientation, gender identity, or veteran status.
